Summary :

Full Stack Developer experienced in designing and building complete web applications from frontend to backend. Skilled in React, TypeScript, Node.js, Express, MongoDB, REST APIs, authentication, real-time communication, and cloud integrations. Passionate about creating scalable, secure, and production-ready applications with exceptional user experience.

Skills :

Frontend :

React - TypeScript - JavaScript - Tailwind CSS - HTML5 - CSS3

React Router - TanStack Query - Axios - Shadcn/UI

Backend :

Node.js - Express.js - MongoDB - Mongoose - JWT

Bcrypt - Zod - REST APIs

Integrations :

Stripe - Cloudinary - Socket.IO - Nodemailer - Brevo

Education :

Bachelor of Computer Science

Beni-Suef University

Grade: Very Good | 2026 – 2022

Projects :

1) NOVA – Full Stack E-commerce Platform

- Designed and built a complete full-stack e-commerce platform from scratch.
- Developed a React frontend with a secure Express REST API.
- Integrated Stripe payments, Cloudinary storage, and JWT authentication.

- Implemented admin dashboard, analytics, order tracking, reviews, and wishlist.
- Tech Stack: React, TypeScript, Node.js, Express, MongoDB, Tailwind CSS
- GitHub: <https://github.com/IbrahimAwiby/Nova-E-Commerce-2026>
- Project video on linkedin : [Click Here](#)

2) Prescripto — Healthcare Management Platform

- Developed a complete healthcare platform for patients, doctors, and administrators.
- Built responsive React interfaces connected to secure backend APIs.
- Implemented appointment booking, payments, and role-based authentication.
- Integrated Cloudinary and Paymob services.
- Tech Stack: React, Node.js, Express, MongoDB, Tailwind CSS
- GitHub: <https://github.com/IbrahimAwiby/Perscripto>
- Project video on linkedin : [Click Here](#)

3) Real-Time Chat Application

- Built a full-stack real-time messaging platform with Socket.IO.
- Implemented JWT authentication, image uploads, and user profiles.
- Developed responsive messaging UI with multiple themes.
- Added online status, unread messages, and real-time communication.
- Tech Stack: React, Node.js, Express, Socket.IO, MongoDB
